

Install SmartLuco mobile app

To install SmartLuco mobile app on your Android or iOS device, refer to the step-by-step guide below.

Android (Phone, Tablet, Smart TV)

Device Support

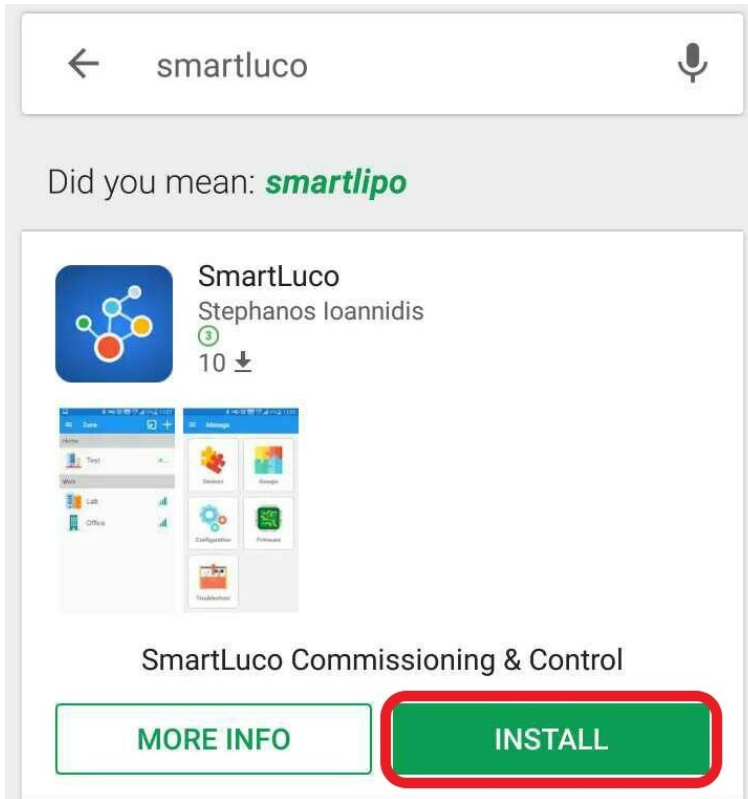

Your Android device must support the Bluetooth Low Energy. Most devices released after the year 2012 support this feature.

The minimum Android operating system supported is Lollipop (5.0).

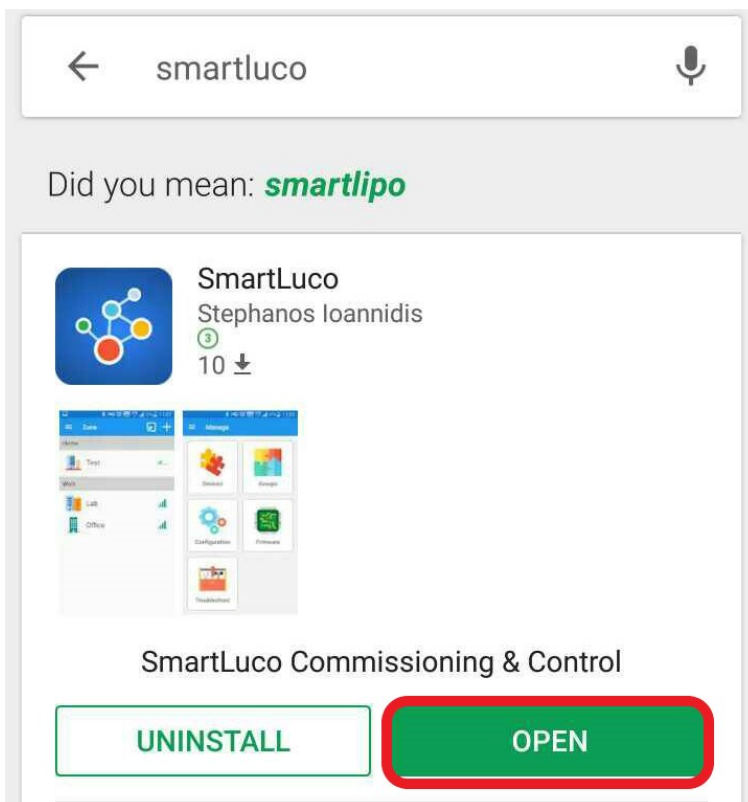

1. Open 'Play Store' on your device.

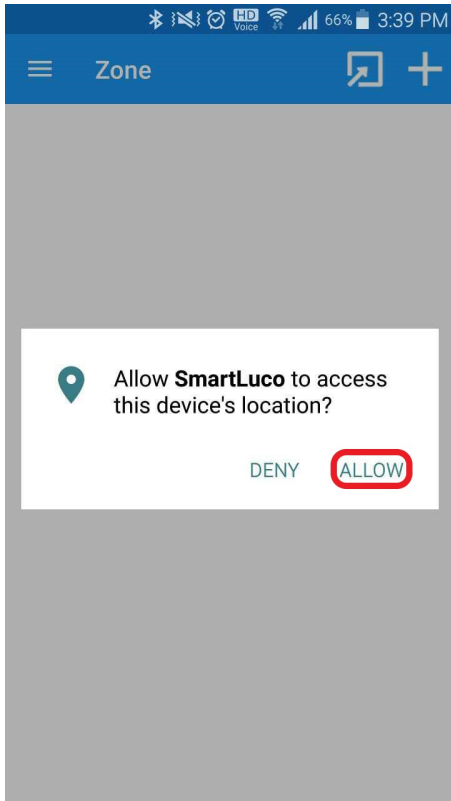

2. Search "SmartLuco" and tap 'Install'.

3. Tap 'Open' to launch the 'SmartLuco' app.

4. Wait for the app to start and allow permission requests.

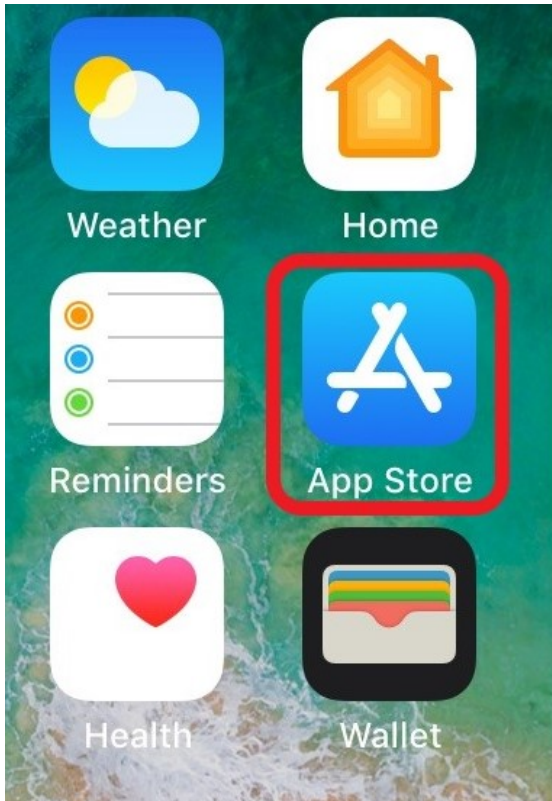

The 'Location' permission is required for a Bluetooth Low Energy device scan. You must allow it in order to use the SmartLuco app.

iOS (iPhone, iPad)

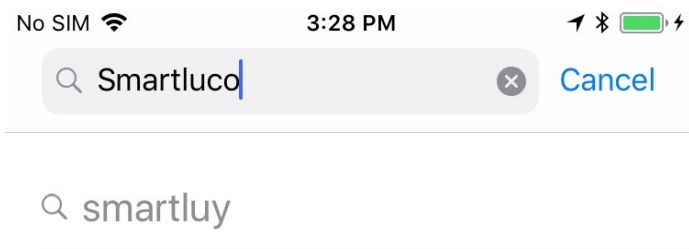

Device Support

Your device must be running iOS 9.3 or above in order to be able to support the SmartLuco mobile app.

1. Open 'App Store' on your device.

2. Search "SmartLuco"

3. Tap 'Get' to install the app.
